

Death Removes Three Aged Residents

Death entered three homes in Crawford county during the past week, and three aged people were called to their reward.

FRANK E. LOVE

Frank E. Love, a well known and highly esteemed resident of Beaver Creek township for over half a century, died at his farm home Monday afternoon, having suffered a cerebral hemorrhage two hours before. Mr. Love was discovered lying in his corn field by a passing motorist at nine o'clock that morning. He had finished doing his morning chores and had gone to the field at 7:30. He was taken into the farm home and a physician from Grayling called. He passed away two hours later.

Mr. Love was 79 years old and was born in Owosso. He came to Crawford county 50 years ago last spring, and purchased the farm home where they have since resided. The farm is located on the US-27 highway nine miles south of Grayling and is one of the finest in the county. For over thirty years Mr. Love served his township as supervisor and he also served in the other offices at times.

Funeral services are being held at the farm home this afternoon at 2:00 o'clock and interment will be in Elmwood cemetery, Grayling.

Surviving the deceased are his widow Ida, and four daughters, Mrs. Ethel Robbins, Roscommon, Mrs. Bertha Millikin, Beaver Creek, Mrs. Pearl Nolan and Mrs. Edith Ferguson, Grayling, and all have the sympathy of hosts of neighbors and friends in their sorrow.

JAMES PERRY

James Perry, age 72 years, passed away at his home early Friday morning following a heart attack suffered the day previous. Although Mr. Perry had been receiving treatments at University Hospital, Ann Arbor for a growth on his lip he had seemed in his usual health, and his passing came very unexpectedly.

Mr. Perry was born in St. Lawrence County, New York, on May 3, 1866. His boyhood was spent in New York state and when he was 20 years old he came to Bay County. On January 7, 1888 he was united in marriage to Zoa Tatrow at Bay City. Incidentally last January Mr. and Mrs. Perry observed their golden wedding and the occasion was celebrated with much festivity for two days.

The family resided in Bay County for about 30 years and also resided in Wolverine, going to Detroit in 1918, where they lived until they came to Grayling on Nov. 15, 1932. Soon after coming here they purchased the property that was the old John Olson home located on Norway street. They soon became acquainted and gained a large circle of warm friends. Mr. Perry was a very fine old gentleman, congenial and kind to all. He was a kind and loving husband and father and will be sadly missed from the family circle.

Funeral services were held Monday morning at 10:00 o'clock at St. Mary's church with Rev. Fr. James Moloney celebrating the requiem mass. There was a large crowd of relatives and friends in attendance at the last rites. Interment was in Elmwood cemetery.

Besides the widow, four sons

and three daughters survive. William of Cheboygan; Burt of Detroit; Mrs. Harvey Mattoon Pontiac; Mrs. Claude Cardinal. Mrs. Thomas Wells, Lloyd and Vern Perry, Grayling. Also there are 27 grandchildren and three great grandchildren. All have the sympathy of hosts of friends in their hour of sorrow.

Following are those from out of town in attendance at the funeral:

Mr. and Mrs. Harvey Mattoon and children, Mr. and Mrs. Louis Tatrow, Mr. and Mrs. Ernest Tatrow, Mr. and Mrs. Leon Tatrow, Ephraim Tatrow, Mr. and Mrs. Sylvester Schone, Mrs. Wm. Vaudecar, Mrs. Harry Warren, Mrs. Joseph Sheek, Mrs. Michael Kerensky, P. Melendez, Mr. and Mrs. Frank Cannell, of Pontiac; Mr. and Mrs. Bert Perry, Mr. and Mrs. Bert Tatrow, Wm. Tatrow, Miss Marvel Perry, Al Sly, Anthony Fritz, Patrick Baufford, Mr. and Mrs. Edw. Fennell, Mrs. Evelyn Haward, Fred Ward, of Detroit.

Mr. and Mrs. Ed. Gardner, Mrs. Wm. O'Brien, Mrs. Dar Dacey, Mr. and Mrs. Wm. Perry and children, of Cheboygan; Mrs. Oscar Fourier, of Bay City; Mrs. Wm. Ernest, of Hale; Peter Tatrow, Mr. and Mrs. Arthur Moshier, Mrs. Fred Wagner, of Flint; Mr. and Mrs. Richard Tatrow, of Tower, Mich.; Mrs. Walter Covalesky, of Pinconning; Mr. and Mrs. Isaac Kennell, Mr. and Mrs. Bill Reinstatler, Mr. and Mrs. Martin White, Mr. and Mrs. Joseph Norris, of Turner, Mich.

MRS. PAULINE LAAGE

Mrs. Pauline Laage, mother of Max Laage, superintendent of AuSable State Forest, passed away at the home of her son at 2:00 Tuesday afternoon, at the ripe age of 82 years. Ill since Thursday, Mrs. Laage died of a heart ailment.

Since the passing of her husband in 1930, the deceased had made her home during the winter with her daughter, Mrs. William Blom in Detroit, and spent the summers with her son.

A native of Germany, Pauline Josephsky was born in West Prussia Jan. 25, 1856. She was united in marriage to Henry Laage in her native land and there their three children were born, one passing away in its childhood.

The Laage family came to America in 1884 and settled in Chicago and resided there until 1898 when they moved to Munising, Mich., where Mr. and Mrs. Laage purchased a farm and lived until 1924. That year they moved to Detroit, and Mr. Laage passed away in 1930.

The remains are at Grayling Funeral Home, where funeral services will be held Friday morning at 9:30 o'clock. Elder Allen Schour of Gaylord, pastor of the Latter Day Saints church, will officiate. Interment will be in Grand Oakland Memorial cemetery at Novi, Mich., beside the remains of the deceased's husband.

Among those expected to arrive for the funeral are Mr. and Mrs. William Blom, Detroit, Mr. and Mrs. Emil Peterson, Munising, Dr. and Mrs. M. E. Whitehead and son—Dean—of Comins, Mich.

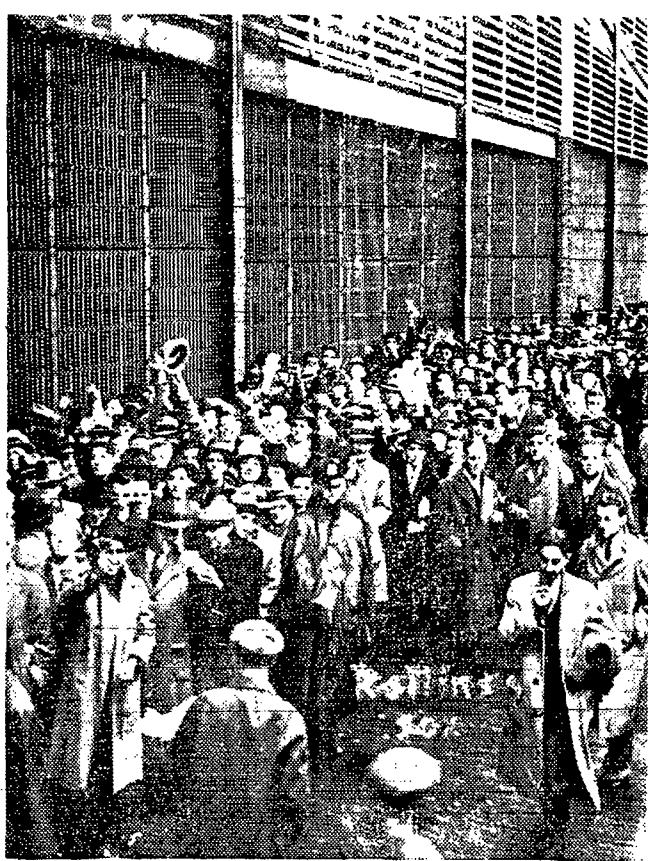

Surviving the deceased besides the son and daughter are eight grandchildren and one great grandchild.

The family have the sympathy of many friends in their bereavement.

Rain Won't Keep 'Em Away!

Officials of the forthcoming world series aren't worrying about rain. They need only remember the 3,000 rabid fans who jammed the bleachers and unreserved seats at New York's Polo Grounds before the fifth game of last year's series, undaunted by cold, drizzly weather. Last year's series between the New York Giants and New York Yankees, which broke series attendance records, is expected to be exceeded this year.

Chamber Commerce Elects Officers

A meeting of the Board of Directors of Grayling Chamber of Commerce was held in the Court House Tuesday night at which time was held the election of officers for the ensuing year. The new officers are as follows:

Harley Russell, president.
Amos Hunter, vice president.
Clarence (Tony) Gross, Secretary.

A. J. Joseph, treasurer.
Royal A. Wright, who had been president of the organization since its organization two years ago, was given a vote of thanks for the splendid service he had rendered the board. He set a high standard of service for the good of the community, giving considerable of his time and talents. Under his administration, Grayling has had a board that attended to every detail and outsiders were appreciative of the promptness in which their wants were cared for. It has been a bigger job than outsiders generally know about. Mr. Wright worked unselfishly and at all times has kept the community working in harmony. At no time did he ever promote his own interests and was always modest in looking for any personal credit. He never wanted personal glory but he DID want results.

Farnum Matson was the secretary last year and he too did a good job. We cannot be too appreciative of the community service these men have rendered.

With the new officers installed, everything is in readiness to begin a new year of community activity. We wish them success.

Tells of Trip To Los Angeles

Nels Olson Writes Interesting Story of Experiences

August 15th, 1938

Dear Dad, Mom, Ebby, and Anyone Else Interested Enough to Read It:

1:30 Monday.

We are now out of Cheyenne, a little ways on the way to Denver. I can see mountains to make away, also a storm, not so far away, but I think we will make most of it. (We missed it.)

They are very definite about their speed laws here in Colorado, 60 per. (It's 50 in Utah and 40 in California; 45 on the desert.)

5:45; 9500 feet up. Such beauty, impossible to describe. I felt like a kid with a new toy. We stopped and did some hard painting up a lonesome stream on the mountainside. Found a few grains of silver, gold and quartz. Patches of snow above us. There is a beauty here that is impossible to distinguish in pictures, movies or otherwise. I saw a vein of pure gold, at least it must have been, because it was about a foot and a half wide and right next to the road. It's cool and the water in the little stream is ice cold. No guard rails this high up. 10,000 feet up now and have to go almost straight up to the top of another mountain, a mile away. 11,314 feet up now. Wow! The highest point of the road.

5:30 Tuesday morning and we just topped the last mountain we must cross. Lots in view yet but we go down a gorge till we come to Salt Lake City, and down another from there till we hit the ranges this side of Death Valley, and the other side. I coasted 20 miles at the last range and we have another glide ahead of us that will do about the same. You know, 600 miles of mountains, hills, and curves is quite a stretch, but the scenery was worth it. (Never out of sight of mountains from Denver to Los Angeles). This range here around Salt Lake isn't solid pine like the Rockies out of Denver. This is the alkali desert and there's nothing but scrub oak and mesquite, but pretty from a distance. The desert isn't flat and it isn't sandy. There is some cactus but most of it is mesquite. It is terribly hot, even at 6:15 a.m. We're going to stop in Las Vegas and do the second desert early in the morning. I only have one film. I wish I had a thousand feet. Highway 91. Just entered Nevada and an oasis. Mesquite village.

We stayed in Las Vegas all night. Slept 10 hours. Went over to Boulder Dam this morning. It's quite a sight. Went down the middle of it, approximately 44 stories, and down the works. We had to take a sidetrack for a mile to miss paying \$7.50 to go thru Nevada. Have come over most of the desert. Yesterday was nothing compared to Death Valley today. We just hit the very tip of it, but the breeze almost burns.

Just came thru the California inspection office. We're beginning to come out of the desert. There's a few trees, besides cactus, and stump palms. Saw a mirage. I'd have sworn it was a beautiful blue lake, but a couple of sand whirlwinds came up right in the middle of it.

There's a lot of women traveling and driving. Some beauties, too. Finally out of the desert and into the San Bernardino forests and hills. Pasadena Mountain range in the near distance, but quite foggy and hard to see. It's getting cold. An hour ago I wanted ice. In a few minutes I put a coat on. Just saw the sign of a show where there are five features for 5 cents.

We got into Los Angeles at 6:00 Wednesday night. Drove around town after getting unpacked. We have a nice apartment. We drove around Hollywood. Saw the Brown Derby, the El Club, and the Trocadero, and some of the lesser clubs. We didn't go in, so far we haven't seen any stars.

Yesterday we went down along the beach and saw the Fleet. The only day to go aboard is Sunday, so we had to be content to watch the Admiral's barge, all white and shining, come into dock. We went down to Long Beach and went swimming in the ocean. I never realized that the water actually tasted salty. And I can float, even my feet stay up. The rollers came in 5 and 6 feet high and it's really fun to get tossed around. If you lay on one of them just right you sail along like a surfboard. We went into San Pedro and saw the fishing fleets, canneries, the big boats loading stuff. One there from

Oil Men Will Meet In Grayling Oct. 11

A meeting of the Crawford, Oscoda and Roscommon county oil men will be held at the Shoppenagons Inn at Grayling, Tuesday, October 11th, at 8:00 p. m., E.S.T., according to William Palmer of Mt. Pleasant, Secretary of the Michigan Petroleum Industries Committee.

Organization of a local committee is contemplated and other important matters affecting the oil business and its customers will be discussed. Prominent Michigan oil men will attend and address the group.

All oil men and others connected with the automotive industry are urged to attend this meeting, Mr. Palmer stated.

CALVARY BIBLE SCHOOL

Sunday school—10:00 a. m.
Evening service—7:00 o'clock.
Services held at Barnes home. You are welcome.
Floyd D. Barnes, Pastor.

Denmark and one from Sweden. The canneries smell awful. Drove off over town last night. Saw my first dance-a-dance place and it wasn't filled with sailors' messes, but there are lots of sailors around San Pedro.

On the desert the speed limit is 45 miles an hour and they drive down Hollywood Boulevard at 70. A high fog comes up here every morning and evening. If we had clouds in the sky as thick as these we'd prepare for a storm, and they just stay there for a while and then go away.

It's not hot here. Guess it never gets any hotter.
Guess that's all for now. Love
Nels.

Biologist Group Coming To Grayling

Last week when Walter Hastings, official photographer for the Department of Conservation, was in Grayling, he made reservations at Shoppenagons Inn for sixty people, biologists from U. of M. and other colleges, who will be here October 14th, 15th and 16th.

Some of the time of this group will be devoted to Hartwick Pines, Higgins Lake Forestry and other places.

Mr. Hastings just returned home from three months spent in the wilds of Labrador and says he has a lot of fine pictures, both still and motion, which he says he will be glad to show in Grayling in the near future. And he promises an exhibition of seal furs and seal meat and, incidentally, that he may let us taste the latter, perhaps. Well, we're waiting!

Fourteen members of the Ladies Auxiliary turned out to a pot-luck luncheon Wednesday. Score honor for contract which followed the luncheon went to Mrs. C. R. Kuyper.

Next Wednesday day another luncheon will be given.
Mrs. Chas. Moore and Mrs. Marian Burch of Traverse City were guests of the club.

Grange Notes

What do you know about it? The Grangers held their first meeting in their own hall Saturday, October 1st and did it seem good to be in our own home. Altho not finished it answers the purpose grand.

We used it for our Booster program Friday night, September 30th, and had a grand time. There were some wonderful displays of farm produce.

Mr. and Mrs. Richard Babbitt were given two dollars for having the best display, and Mr. Wood exhibited some sunflowers that looked like large daisies, that might be used for bouquets.

The election of officers was as follows:
Master—Hugo Schrieber.
Overseer—Richard Babbitt.
Lecturer—Cynthia Knecht.
Steward—Elmer Ostrander.
Assoc. Steward—Chas. Corwin.
Chaplain—Euphemia Corwin.
Treasurer—Wm. Woodburn.
Secretary—F. Wakeley.
Gatekeeper—Carrah Corwin.
Ceres—Carrie Feldhauser.
Pomona—Fern Feldhauser.
Flora—Odessa Annis.
S. A. Steward—Pearl Babbitt.

SCHOOL NEWS

With the ideal weather that prevailed the past week, shots turned toward picnics and several organizations enjoyed "weenie" roasts at nearby picnic grounds.

Through the courtesy of the Grayling Lumber Co., in providing transportation, 48 members of the 7th grade, with their sponsors, Miss Johnson and Mr. Bond, enjoyed a picnic at Lake Margrethe Thursday after school. The members of this group wish to express their appreciation to Mr. Peterson and Mr. Milnes for this favor.

The Home Ec. Club recently organized, with the following officers for the year:

Pres.—Mildred Craft.
Vice Pres.—Ann Bidvia.
Sec.—Wanda Lett.
Treas.—Joanne Montour.
This group meets twice a month and had their first meeting in the form of a weenie roast at School Section Lake.

Not to be outdone by the High School Home Ec. students, the 6th grade group journeyed out to Beaver Island Monday night for their first meeting of the year and incidentally to consume a few "hot dogs."

The 9th grade group have started their breakfast unit. The first laboratory problem was preparing muffins and, while we have no first-hand information on the result, we would judge by the smell permeating the halls during the 8th hour that the results were decidedly successful and that there are some excellent cooks "in the making" among the 9th graders.

Miss Nichols' hygiene class is busily engaged in conducting a thorough sanitary and safety survey of the school. The class (Continued on last page)

Notice To Parents

There is a mild epidemic of scarlet fever in our community and you are requested to please cooperate with the School and Health authorities by inspecting your family every day for symptoms of the disease.

The germs are found in the nose and throat discharges of the cases and carriers.

The symptoms of scarlet fever are: Cold symptoms, coughing, sneezing, and discharging nose, headache, nausea and vomiting, sore and inflamed throat with temperature.

Most cases of scarlet fever develop about the third or fourth day after exposure. Scarlet rash usually appears about twenty-four hours after the onset of symptoms and appears first on the base of the neck and upper part of the chest, gradually spreading over the rest of the body.

If any member of your family should have any of the above symptoms, the family physician should be called immediately and the patient isolated until the physician has made his diagnosis.

Scarlet fever usually leaves very serious complications of the ears, heart, and kidney, ailments which can be avoided by having good medical attention during the illness.

In the past two weeks ten cases have been reported to the health department. Your cooperation is urged at this time if we are going to prevent a serious epidemic.

Johanna Gorman, R. N.,
School Nurse.

Public Notice

Local doctors and health department are co-operating to check the spread of scarlet fever and the public is being asked to cooperate to prevent an epidemic. Following are the rules of quarantine, which, if violated, are punishable by law:

FRANK LOVE

Frank Love was one of the old type of citizenry who believed in high ideals and in sterling character. His was of the type of manhood that, it seems to us, is rare today. As we knew him we could only picture him as honest, industrious, friendly and kind. And his faith in others and in his characteristics as a person, a splendid husband, father and neighbor. The people of this community in which he resided for fifty years will miss his pleasant memories.

The Michigan Mirror

Non-partisan News Letter
Michigan Press Association
By GENE ALLEMAN

Lansing—One of the Republicans' leading handicaps, lack of knowledge as to who would form their state ticket, was removed this week by action at the convention in Grand Rapids.

For months the Murphy administration has had the edge on their opponents. Leaders had agreed that top office-holders would be renominated. The sole uncertainty was the lieutenant governorship—Leo J. Nowicki or George Schroeder—and the primary settled that.

With all the personalities picked and at the barrier, the great race is on.

The only unknown factor in the campaign is the possible development of issues between now and Nov. 8.

What is "McKayism"?

At a recent press dinner here at which he confided that he had enjoyed "as good a press as any governor," Frank Murphy reiterated such phrases as "good government," "social justice" and "economic progress." These are symbols from the New Deal testament.

As contrast to this, there is every sign that the administration will try to smear Frank McKay, the Grand Rapids republican leader.

Efforts will be made to picture McKay as a vicious Tammany Hall, a greedy tiger at the public tax trough, and so on.

The smear-McKay move, however, has interesting possibilities, some of which might be at the expense of Murphy's own party. If Lansing rumors are to be believed, McKay and State Treasurer Theodore Fry have been close friends for many years. It is no secret that the Fry brothers and the governor have been on terms for many months and that Theodore, state treasurer, was on the verge of not running again because of these personal differences.

Proof is Needed

Capital observers doubt that McKay can be turned into a political bogeyman by mere talk and fuss, Michigan.

In other words, if McKay will have the goods in the future, he will get excited.

It is known that a group of influential men confronted Frank Fitzgerald, prior to the primary, with an ultimatum somewhat as follows: We will support you in accordance to your knowledge and testimony, the McKay slate is clean.

Fitzgerald impressed them with his sincerity, so the story goes. This event was one of the turning points in the Toy-Fitzgerald primary feud.

Outlook Bright

Despite the European war storm, the outlook for business continues to look bright in the judgment of Alfred P. Sloan, Jr.

Pays Fine Tribute To Co-Worker

Chub DeWolfe, feature writer for the Toledo Blade, in last Friday's "Among The Folks" column had a fine compliment for his co-worker W. Edward Myers. Mr. and Mrs. Myers have a home on the AuSable river and have been coming to Grayling for about 12 years and last fall built a fine home on the AuSable about 10 miles east of Grayling. By those who know them they are held in high esteem. Mr. DeWolfe had the following to say about Mr. Myers:

Good men and women, who are spending their lives in Toledo with this newspaper, whose interests are in Toledo now and forever, are among the elements that make the Toledo Blade the great newspaper that it is. W. Edward Myers, Advertising Director, has worked in Toledo 40 years—more than 26 of them with The Blade.

"The thing I like best," Ed said the other day, touching on life outside the office, "is to spend all the time I can at my lodge on the AuSable River, where my wife spends the summer. And, to drive through the woods 12 miles every Sunday morning to the little community church in Grayling, with its fine pastor, its splendid organist and choir."

And, beyond that, Mr. Myers includes fly casting for trout, which he indulges to the limit. Ed is a boy from Martin, O., has held only two positions in his Toledo career, first in 1898 as a stenographer for Lasalle & Koch. And then to The Blade in 1912, rounding out 40 years of work in Toledo this month. He completed

Resumption of the assembly line in automobile factories has injected new optimism throughout the state.

From the Social Security board office in Washington comes heartening news that Michigan leads all other industrial states in the decline of the number of persons receiving general relief. Flint led all industrial cities with a decline of 32 per cent.

Flaming Forests

Our grandfathers never heard of such things as "color tours" and yet this wrinkle in the Michigan tourist business is beginning to take on promising proportions.

It was 12 years ago that Fred Rogers, then state highway commissioner, conceived the idea while on a trip through New Jersey.

This Saturday, Oct. 8, the 1938 "color tours" will begin in nearly a score of West Michigan counties.

Brownrigg Secure

At Lansing amid the civil service controversy there is one man whose job is apparently secure, regardless of the outcome of qualifying examinations, commission decisions and so forth.

William Brownrigg, state personnel director, has managed to steer a careful path. Recently he received the blessing of Republican Nonnece Fitzgerald under whose auspices the civil service study commission was created. Brownrigg has been staunchly defended by Governor Murphy, even in the face of reversed decisions.

Action of the legislature to create a state pension system for supernumerated employees is recommended by Brownrigg, who would make it retroactive to cover workers who failed to pass qualifying examinations. It is estimated that 100 or 200 of such cases exist among the 15,000 employees who have taken the tests.

Thus the civil service plan, newly born at Lansing, having passed the first hurdle, despite talk and fuss, Michigan will retain civil service for its employees.

Municipal Problem

Exponents of home rule are raising the state welfare reorganization act on which Michigan voters will make a decision Nov. 8.

Kenneth J. McCarren, Detroit city assessor and president of the Michigan Municipal league, declares that public aid is largely a municipal problem and for that reason "municipalities endorse the economies the new program will provide."

In McCarren's judgment the choice is local control or state control. So far the welfare act has not become a campaign issue. Because of its non-partisan history, chances are slight that it will be involved in the gubernatorial race.

ed a course in stenography in 1917 in the Davis Business College in six months, and he says that it was the founder of this college that obtained his first job for him with Lasalle & Koch's.

But, even before Toledo, there was another first job. Because at 13, Ed was an apprentice in his grandfather's blacksmith and wagon making shop in the little town of Genoa, and that was long before he became a Rotarian, which he has been for years.

He is interested in a lot of things here in the city. Collingwood Avenue Presbyterian Church is one of them—and he's been through all the offices. He is a Y. M. C. A. trustee and has been interested in the Community Chest since its first year, and has not missed one campaign, being at the present time chairman of the carded prospects division, which consists of 500 or more salesmen and saleswomen.

New Rules

Because of the large number in high school, many new rules are being enforced. These are as follows:

1. The study hall doors will be kept locked in the morning until 8-10 and at noon until 12:45.

2. At 8-10 and 12:45, only the front study hall doors will be opened for those who wish to enter quietly and get their books or sit down in their own seats to study. Those getting books will quickly and quietly leave the study hall and go to their classrooms.

3. The back study hall doors will remain closed until the bell rings at 8:30 a. m. and 1:00 p. m.

4. Students not in the study hall or classroom will remain outdoors until class time, allowing for time to be in class or session before the tardy bell rings.

5. Only people coming in on the buses or those having special

Electrician Offers Safety Suggestions

As a part of Fire Prevention Week, Mr. R. S. King, Electrical Inspector for this district, urges all householders to make a survey of their electrical equipment to see if any of it might constitute a fire hazard. We suspect that electricity is blamed for more fires than it really causes, but there are definite fire hazards in the misuse of electricity with which every householder should be familiar.

Mr. King makes the following ten suggestions for making homes safer, and urges all to cooperate with his department in eliminating electrical loss.

1. If any lamp socket is coming apart, or is loose on its support, have it repaired. If the wires are worn where they enter any socket, have them replaced.

2. Look around the house for "temporary" extensions which have been left in place. Call in an electrician to have these replaced by a permanent form of wiring.

3. See if all portable appliances and lamps are in first class condition. If you get a shock from any of them or if they frequently cause fuse blow-outs, have them repaired by an experienced man.

4. See if the insulation on all attachment cords is intact. If insulation is broken down or if wires are exposed, replace the cords with new ones.

5. In purchasing cords, select only those which have been approved, and which carry the "biacel label" of Underwriters' Laboratories.

6. Do not subject flexible cords to injury in any way. Do not run them under rugs, through doorways, or leave them in contact with hot radiators.

7. Examine the fuses to see if any of them have been tampered with. Use fuses rated at 15 amperes except for special circuit. Keep some extra fuses on hand.

8. Disconnect all electrical heating appliances, particularly electric irons, when not in use. Do this by detaching their cords from the outlets.

9. See if all outlets are solidly fastened in place. If outlets are when plugs are connected, or if outlets do not make good contact with the plugs, have the outlets replaced.

10. Have respect for all electrical equipment as long as it is in use, and keep it in good order.

permission from Mr. Poor will be allowed in the building between dismissal at noon and 12:45 p. m.

6. The names of all students not in their seats in the study hall or classroom when the tardy bell rings at 3 minutes after the beginning of the period, will be recorded on the back of the absence sheet. These names will be posted on the bulletin board and the students will be required to make up the lost time after 4:00 p. m.—Only those bringing signed excuses from home will be excused.

7. All students who have been absent or are tardy must bring signed excuses from home. Students not bringing excuses will make up the time lost after 4:00 p. m.

8. Unless otherwise announced, all students mentioned in items 6 and 7 will remain in the study hall each Friday at 4:00 p. m. and stay until the time lost has been made up.

Regulations Pertaining To Sessions And Dismissals

1. In sessions, students are to raise their hand for permission to go to the desk. At the desk the student must receive permission from the teacher to speak or leave the room.

2. For permission to sharpen pencil, raise the pencil with the point up.

3. Permission to speak in session will be granted not more than once during a period to any one student.

4. While speaking, students will stand and converse quietly.

5. There will be no conversation or whispering without permission.

6. Students doing reference or assigned work in the library, must first obtain signed library slips from the teacher of that subject.

Students doing so must not interrupt a class to obtain the slip. Because the library is small and easily over-crowded, the session teacher will have the right to control the number who shall use it. He or she will also have the right to close it during any period.

7. Students in session will remain quietly in their seats until the second bell rings. There will be no talking between the warning and dismissal bell.

8. At dismissal the boys will leave session single file. Girls will do the same until the boys are off the stairs after which the girls may go down in double file.

9. The fire escape is not to be used except for fire drills or actual fire.

Would Strip County Of Authority

The Proposed Reorganized Welfare Commission Has More Power Than That of The Police or The Courts

(Contributed)

Section 7 of Public Acts of 1937 No. 257, says in effect any member of the commission or the director can summon you, your wife or any member of your family, and take possession of your books, and records—anything they may demand—before a commission member or the commission, at any place or time, and subject you and your records to any sort of an investigation they may desire to make.

The proposed act gives the commission or any commission member or the director more authority than that possessed by any police department, any sheriff, state police or even the courts. They can administer the oath, issue subpoenas, and if you refuse their bidding, they can demand that you be sent to jail.

This is the law as it is written today, and which we ask you to vote "no" on this fall. We give you section 7 word for word as it is written in the law as follows:

Section 7 of Senate Enrolled No. 99 Or Public Act No. 257 Of Public Acts Of 1937

Any member of the commission or the director, may issue a subpoena requiring any person to appear before the commission or director, as the case may be, and be examined with reference to any matter within its jurisdiction and within the scope of the inquiry or investigation being conducted by the said commission or director, and to produce any books, records or papers, pertinent to such inquiry. Any member of the commission, the director, or any duly authorized agent of the commission or director, may administer an oath to a witness in any matter before the commission or director, as the case may be. In case of disobedience of a subpoena, the commission or director may invoke the aid of the circuit court of the county in which the witness resides, or the circuit court of the county in which the inquiry is being held, in requiring the attendance and testimony of witnesses and the production of books, papers and documents.

Any circuit court of the state, within the jurisdiction of which any such inquiry is carried on, may, in case of contumacy or refusal to obey a subpoena, issue an order requiring such person to appear before said commission or director, as the case may be, and to produce books, records and papers if so desired and give evidence touching the matter in question. Any failure to obey such order of the court may be punished by such court as a contempt thereof.

The above paragraph is dictatorial beyond any question, and is taken from the law as written. If for no other reason than this one paragraph, these bills should be overwhelmingly defeated, but there are many other reasons.

The Decision of the State Welfare Commission Is Final. No Appeal.

Section 9, line 7, says that only the State Welfare Commission

shall review complaints and decisions made by the county boards of applicants, for assistance. It says further that its decisions are final and must be complied with by city, county, or district department of Public Welfare under the commission. Even the courts are closed against you if the commission decides against you. Here is section 9:

Section 9 of Senate Enrolled No. 99 Or Public Act No. 257 Of 1937, Line 7

All decisions of the commission shall be binding upon the county, city or district departments of public welfare involved and shall be complied with by said department.

Counties And Cities Stripped of All Authority in Connection With Funds

Section 13, paragraph A, says that the department shall have complete authority to allocate and distribute funds to counties, cities, and districts for all welfare purposes.

The law says in effect that the commission can cut off entirely some city or county from all welfare aid if it desires to do so. It can give to any favored city or county more than its share of welfare funds. There is no provision made for any equalized distribution of welfare funds upon a population basis. Section 13, paragraph A, of the law says:

Section 13 of Senate Enrolled No. 99 Or Public Act No. 257 Of Public Acts Of 1937, Section 13, Paragraph A.

The department shall have and be vested with the following additional powers and duties:

(a) To allocate and distribute to the several county, city, and district departments of public welfare, as herein provided, subject to federal rules and regulations, if any, and in accordance with the rules and regulations promulgated by the commission, moneys appropriated by the legislature or received from the federal government for the relief of destitution or unemployment within the state of Michigan, or any political subdivision thereof, for the granting of old age assistance, aid to dependent children, and aid to the blind and otherwise handicapped; for medical, dental, nursing, pharmaceutical, and burial relief, and for such other relief or welfare services as may be provided by law.

Beyond Reach Of Voters

Section 23—the intent of this section, as well as the entire law, is to create a new state agency with more power than has ever before been given to any board, commission or even law enforcement officers or the courts. Unless you vote "No," there is immediately established a powerful and arbitrary branch of the state government beyond the reach of the legislature or the voter.

Section 23 Of Senate Enrolled No. 99 Or Public Act No. 257 Of Public Acts Of 1937

Should any provision or section of this act be held to be invalid for any reason, such holding shall not be construed as effecting the validity of any remaining portion of such section or of this act, it being the legislative intent that this act shall stand, notwithstanding the invalidity of any such provision or section.

Vote "No."

TWO OVERCOATS?

BUT NO TROUSERS!

NO ONE WANTS TO PAY FOR MORE THAN HE NEEDS IN ONE PLACE WHILE OTHER VITAL SPOTS ARE LEFT UNPROTECTED

Yet most homeowners, we find, do not have insurance policies which fit present-day values and changing conditions. They are apt to have their home OVER-insured—the furnishings UNDER-insured. Because very few persons read and understand the provisions of their Insurance Policy, the deficiencies rarely come to light until after a fire, or other calamity. Then it may be revealed that the insurance was ill-fitted to cope with actual needs. Too much here—not enough there—just like the fellow with two overcoats and no trousers.

An analysis of your protection needs is easy if you have our booklet "A Check-Up of Insurable Property." Send for it today!

Many Varieties of Wild Grapes in United States

More than 20 species of wild grapes grow in the United States and they are widely distributed in wooded regions. Their abundance along the eastern coast gave rise to the historical legend of the vineyards found there by the Norsemen nearly a thousand years ago when these men are said to have called the country Vineland, observes a writer in the Chicago Tribune.

Most of the cultivated grapes grown in eastern United States were developed from wild vines found in the forests. Hundreds of different varieties have been obtained by crossing native species. The wild species commonly called fox grape has furnished more of the cultivated varieties than any other single species. Some of the better known ones derived from the fox grape are Concord, Catawba, Dracut Amber, Moore's Early, Ives, and Red Giant.

One variety of wild grape vines belongs to the species known as summer grape. This species is distinguished by large vines that often climb to the tops of tall trees. Vines of the fox grape are more likely to trail near the ground on shrubs, low trees, or fences. Fruit of the summer grape is small. Fox grapes are larger, sometimes being nearly the size of cultivated varieties. All wild grape vines have the same appearance as the domesticated varieties seen in vineyards. The chief difference is the smaller grapes of the wild species.

Grape vines often grow so rank as to injure the trees they climb by cutting off part of the light from the trees' leaves. The vines are not parasites in the sense of taking food directly from the trees on which they grow—they only use the trees for support as they climb up to reach the sunlight, hanging on to the bark and limbs by small tendrils.

Dead Sea, Mediterranean, Among Saltiest of World

The Dead sea is the saltiest sea in the world; it contains in solution 22 parts of dissolved matter in every 100 parts of water. From the report of the government laboratory we learn that the Atlantic ocean is saltier than the North sea, observes a writer in London Tit-Bits magazine.

Tests were carried out to discover what effect the salt concentration has upon the fish life of the different seas. By periodically taking samples of the water and testing them for salinity, the movements of one part of the sea to another can clearly be traced. It is thought that fish accustomed to water containing a certain quantity of salt are likely to follow currents that show their normal saline content.

The Mediterranean sea holds in solution 3.8 parts of dissolved matter in every 100 parts of water; the Atlantic ocean 3.6 parts. The former is therefore slightly saltier than the latter.

The Baltic, in contrast, contains only 0.5 parts of dissolved matter, due probably to the fact that it is fed with vast quantities of melted snow, which is almost entirely composed of fresh water.

Bellflower Has Several Names

The tall bellflower, related to the bluebell of Scotland, has several other names, including Canterbury bells and bluebell. It is widely distributed, being found as far north as Ontario and south to Florida. Related species, such as the bluebell of Scotland, are found in Europe. Plants of the bluebell family are unimportant for medicinal uses or other commercial purposes, although they did find some uses for them in the old days. Alfred Lord Tennyson once wrote that bluebell juice (from the stems and roots) was a good remedy for snake bites, a remedy that the modern doctor hardly would use. The juice from the roots also has been used as a substitute for starch, and in the days when stiff ruffs were worn bluebell juice was in much demand for starching purposes. Since the juice is somewhat resinous it was used as bookbinders' gum in the early days. For the same reason it was considered excellent for attaching feathers to arrows that English archers shot with their long bows.

England's Worst Money Famine

The worst money famine in England took place some two hundred years ago, when by mistake, silver was undervalued, and speculators bought up the coins as fast as they were minted for sale abroad at their real value. In order to supply this deficiency, says London Answers magazine, permission was given for the issue of "token" coins. Towns, tradesmen, and business firms were allowed to make use of metal tokens and paper money, which, however, were only good in the towns where they were issued, or in the shops concerned.

St. Paul a Roman Citizen

St. Paul the Apostle, formerly Saul of Tarsus, came of an Aramaic-speaking family. He was a Roman citizen. Long after his conversion he retained a certain pride in his Jewish birth and a great affection for his own people. Though born outside Palestine, he was brought up, not as a Greek-speaking Jew or Hellenist, but as a Hebrew. This last denotes a difference of language and manners. Accordingly, he spoke Aramaic fluently.

Order of the Conservation Commission—Ducks, Geese, Brant, Coot, Jacksnipe, Rails, Gallinules and Woodcock.

The Director of Conservation, in compliance with federal regulations in regard to migratory game birds, recommends certain regulations.

By authority of Act 286, P. A. 1929, as amended, and Act 230, P. A. 1925, the Conservation Commission hereby establishes an open season on migratory game birds and complies with federal regulations in regard to hunting and possession thereof.

The open season on ducks (except wood duck), geese, brant, coot, jacksnipe, rails and gallinules during the season of 1938 shall be from October 1 to November 14, inclusive, excepting that it shall be unlawful to hunt ducks, geese, brant and coot before 7:00 a. m. or after 4:00 p. m., and jacksnipe, rails and gallinules (except coot) and woodcock before 7:00 a. m. and after sunset.

Eastern Standard Time; and the daily bag and possession limits shall be as follows: ducks (except wood duck), 10 in the aggregate of all kinds in one day of which not more than 3 of any one or more than 3 in the aggregate of canvassback, redhead, ruddy duck or bufflehead, 20 in the aggregate of all kinds in possession of which not more than 6 of any one, or more than 6 in the aggregate may be canvassback, redhead, bufflehead or ruddy duck; geese and brant combined 5 in one day and 10 in possession; coot, 10 in a day and 20 in possession; rails and gallinules (except coot), 10 in a day and 15 in possession; snipe, 10 in a day, 15 in possession.

The open season on woodcock in the Upper Peninsula shall be from October 1 to October 12, inclusive, and from October 15 to October 31, inclusive, in the Lower Peninsula; the daily bag limit shall be 4 and 4 in possession at one time.

It shall be unlawful to shoot migratory game birds with a shotgun (automatic or pump) that has a capacity of more than three shells or to use bait for shooting waterfowl; to use live decoys in taking waterfowl or to use sink box, battery, power propelled boat, sail boat or other craft that is towed by a power boat or sail boat in taking migratory waterfowl. It shall be unlawful to carry out of the State more than two days' bag limit of ducks or geese and brant combined and one day's bag limit of other migratory game birds in one calendar week.

Signed, sealed, and ordered published this 12th day of August, 1938.

How would you like to be told---

"YOUR CHILD WAS KILLED TODAY"

A thing so horrible . . . so unthinkable . . . can't happen to you! Thus you reason and perish the thought from your mind. But mothers and fathers are told nearly every day, "Your child was killed today" . . . and practically every time, the finger of blame can be pointed at a careless motorist. If it can happen to the other person . . . IT CAN HAPPEN TO YOU! But . . . it won't happen to you or anyone else if you and every one else obey traffic laws and regulations. Merely expressing your intentions of driving carefully is not enough. You've got to learn the laws if you don't know them. You've got to think . . . you've got to keep your mind alert . . . you've got to keep your ears and eyes open to avoid disaster. Above all . . . you've got to drive carefully!

has been divided into committees to investigate the following problems:

Ventilation—Laurette Nash, Billyann Clippert, Jane Milnes.
Water Supply—Edwina Simpson, Wilma Feldhauser, Kathryn Bentley, Patricia Chapple.
Sanitation—Maxine Melchior, Betty Thompson, Emma Wilson.
Heating—Mildred Smith, Marjorie Robarge, Ernestine Stephenson, Doris Krage.

Lighting—Dorothy Smith, Isabel Brown, Alice Johnson, Evelyn Bowen.
Dental and Medical Service Available—Nelle Welsh, Rosemary Charron, Gloria McDaniel, Shirley Nelson.

Safety Service—Jeanne Hanson, Alice Wakeley, Maryella Peterson.

First Aid Equipment—Bessie Wakeley, Mary Fletcher, Shirley MacAuley.

Each committee completes its investigation and prepares its report which is then given before the class by the chairman.

The report of the committee on "Dental and Medical Attention Available" is presented here as a typical report:

Dental and Medical Inspection.
We have very good medical and dental supply. Our school dentist is provided by the Couzens' Fund. He brings his drills, all money received and spent is hooks, medicines, X-ray, and carefully kept account of and chair and stays here for eight

weeks, then he goes to another school. Many of the pupils have their teeth taken care of by him. He inspects our teeth each time he comes.

Our other doctor is also from the Couzens' Fund. He has his own nurse and the things which he needs and uses. He gives us tests and vaccinations each to those who need them.

We have a school nurse in Grayling that stays here all year around. When pupils are ill or absent from school she goes and sees them. She gives us eye and ear tests each year weighs us each month. She takes care of our cuts and bruises. We are always in supply of bandages and medicines. She has a sanitary office with a cot and chairs. She has good weighing scales and supplies. We are careful as we have had no serious accidents as yet. We have strict medical attention.

My committee couldn't find much about this subject as the nurse's office is closed and Mrs. Gorman, our school nurse, is ill.

We think the Grayling School has good dental and medical attention from this inspection.

Neile Cary Welsh,
Chairman.

The Arithmetic 7 class is busily engaged studying the subject of keeping cash accounts. As an and each member of the class is keeping a personal cash account. All money received and spent is hooks, medicines, X-ray, and carefully kept account of and chair and stays here for eight

end of the month.

If you should happen to see a few persons dressed in Roman togas this week, don't think the pages of history have been turned back 2,000 years or so. It will be the members of the Latin class getting used to their costumes for their Roman banquet. A hint is all we can give you but we promise all the details.

The Glee Clubs, under the direction of Miss Johnson, are in full swing again and much is expected of this organization. The members are as follows:

Girls' Glee Club
Soprano—Cecilia Craft, Alma Bidvia, Shirley Young, Jean Stevenson, Eileen Swarthout, Ruth Burrows, Yelva Stephan, Janice McKenna, Betty Parsons, Jean Entsminger, Betty Parsons, Jean Brady, Joyce Heath, Frances Ruthowski, Natalie Peterson, Kathleen Kraus.

Altos—Monica Brady, Faye Christensen, Joan Montour, Ruth LaMotte, Eleanor Bugby, Mary Jane Joseph, Mildred Craft, Leona Burrows, Gloria McNeven, Thelma Papendick, Leona Deckrow, Patricia Roberts, Arlene Laage, Laura Rasmussen.

Seventh Grade Girls' Glee Club
Mary Fletcher, Edwina Simpson, Rosemary Charron, Gloria McDaniels, Pat Chappell, Jane Milnes, Billyann Clippert, Shirley MacAuley, Maxine Melchior, Lenette Smith, Maryella Peterson, Mildred Smith, Jean Hanson, Ernestine Stephenson, Nelle Welsh, Shirley Nelson.

As a precaution, in case an emergency should arise, fire drills are held at intervals throughout the year. The latest of these shows that, if need be, the building could be completely emptied of all students and teachers in slightly more than a minute and a half, one minute and thirty-five seconds to be exact. This is quite remarkable time when it is considered that approximately 600 persons are in the building during a normal school day. Both students and teachers are to be congratulated for the results they have accomplished in this direction.

The Juniors are engaged in choosing their play which will be presented about Thanksgiving time. This is one of the events of the school year and will undoubtedly be up to the high standards set in former years.

Miss Eleanor Tumath, local Home Economics teacher, was

recently appointed secretary of the Home Economics Division of the Teachers Institute in Saginaw on October 13-14.

Some very fine programs have been arranged for the two-day session of the Institute. Will Durant and Drew Pearson are headliners who will appear. Teachers from all over the state attend these meetings and fine programs are presented.

Horseshoe Club

The Second Grade has organized a club. The rules for their club are: (1) Obey all school laws; (2) Remember your manners; (3) Practice your health habits. They elect officers every month. This month the officers are as follows:

Pres.—Robert Brady.
Vice Pres.—Edward Coty.
Sec.—Phyllis Schmidt.
Captains—Joan Corwin, Marjorie Nelson.

Because good luck will result from keeping the rules of the club the children decided to name the club, The Horseshoe Club.

Every morning a short talk is given by one of the group on some phase of their rules. Tuesday, Isabelle Purvis reported on the subject, "Brushing Your Teeth." Every Monday a meeting is held.

The girls in home economics class went to East Jordan one afternoon last week and visited the canning factory there. An enjoyable trip was the result, as well as a profitable one. Since then they have had a chance to use some of the knowledge gained by canning tomatoes.

Thursday morning of last week the Home Ec. girls got up with what birds there are left and cooked and ate a hearty breakfast somewhere along the AuSable river. They arrived at school just after the bell had rung. It was not hard to tell who were taking home economics that day. All you had to do was to look for those rubbing sleepy eyes.

The sleepy eyes reminds us of a record breaking event that took place during the soft ball game at Grayling last Friday afternoon. The one and only "Sleepy" of Frederic High School actually stole second base. Now ain't that somethin'! In spite of "Sleepy's" over exertion, the Grayling boys won by a score of 9 to 7.

The boys in shop class are busy this week building lockers for each member to have to store unfinished work in and building and erecting an electrical board.

The Sophomore class sponsored a party at the High School gym Tuesday, October 4th. The first part of the evening was given over to initiating the Freshmen, while the remainder was a dance with the public invited. The or-

Fire . . . A Needless Disaster

Local fire officials join safety forces throughout the nation in observing National Fire Prevention week, aimed to educate the public for greater care in preventing needless destruction of property by fire. Most fires, like the disastrous one above, could be prevented by constant vigilance against fire hazards. Inspect your home for hazards today, before it's too late.

ADVERTISING DOES FOUR THINGS

If You Conduct a Retail Store, There Are Four Things

You Wish To Do . . .

- 1 YOU WISH TO HOLD ALL OF YOUR PRESENT CUSTOMERS.
- 2 YOU WISH TO SELL MORE GOODS TO PRESENT CUSTOMERS.
- 3 YOU WISH TO REPLACE WITH NEW CUSTOMERS THE OLD ONES WHO MOVED AWAY.
- 4 YOU WISH TO INCREASE THE NUMBER OF YOUR CUSTOMERS.

Thus You Have Four Objectives. Not One of These Objectives Can Be Reached by Doing Nothing. None of These Objectives Can Be Wholly Realized Without Advertising in
